

Erasmus+ Internship Opportunity in Tallinn, Estonia

Host Institution: Tallinn University of Technology (TalTech)

Duration: End of August – December 2025 (4 months, with possible extension)

Location: Tallinn, Estonia

Are you passionate about food innovation and creating healthier products without compromising flavor? Join our **Erasmus+ internship program** at **TalTech** to work on **food reformulation**, developing new food products with **reduced salt and sugar content** while maintaining excellent **flavor and taste**.

We are looking for **Master's students** currently studying in one of the following fields:

- Food Science
- Food Technology
- Food Engineering
- Food and Nutrition

The expected workload is around 30 hours per week.

Internship Focus:

You will be involved in hands-on research and product development aimed at reformulating food products for improved health profiles. The key objective is to decrease salt and sugar content while preserving or enhancing the sensory quality and flavor of the final product.

Requirements:

- Motivation to work in the field of food reformulation
- Interest in sensory science and flavor research
- Good communication and teamwork skills

To Apply:

Please send your **CV** and **Motivation Letter** to: lahuse@ttu.ee

Application Deadline: 30.05.2025

We do not offer a scholarship. However, students can apply for an Erasmus+ Internship Scholarship through their home university to help cover their costs.

We look forward to welcoming you to our team in beautiful Tallinn!
